Topic 1

PROJECTS CRITICAL
SUCCESS FACTORS

Topic 2

PROJECTS COMPLETION
CRITERION

Topic 3

PROJECT MANAGEMENT
OFFICE PMO

Topic 4

AGILE PROJECT
MANAGEMENT

Topic 5

TAKE YOUR CAREER
TO THE NEXT LEVEL

Topic 1

PROJECTS CRITICAL SUCCESS FACTORS

THE critical success factors are very different from one project to another, and from one environment to another environment, discussing such topic from multicultural experts in the field of project management will help to understand the most critical affected factors for the projects, the following are the selected sessions for the topic:

1. The most affected project management success factors in multicultural environment.
2. Risk management as a critical success factors, the importance, and it's crucial to the success.

Topic 2

PROJECTS COMPLETION CRITERION

IN order to consider a project has completed as expected there are some parameters and measurements that should be done, the most important parameters and/or triangle elements are e.g. time, cost, quality. There is a critical need for the entire project management team and project members to gain better knowledge and complete picture about the project's completion criterion, the following topics are the choosing sessions for the area:

1. Time, cost, quality are the fundamentals for projects completion, what is different?
2. Project business analysis, particularly the cost benefit analysis.
3. Relationship between projects completion, development and the country's economy.

PMO

Project Management Office

Topic 3

PROJECT MANAGEMENT OFFICE PMO

PMO is considered to be one of the best project management standards within organizations, department and/or a group, it plays the role of execution projects within a practical codes and standards, the next two sessions will do cover the important need for the standard

1. PMO, the benefits, reflections on the business, the best cods and practices, P30 standard.
2. The roles and responsibilities for the PMO, and the kinds of solutions provided.

Topic 4

AGILE PROJECT MANAGEMENT

PROJECT MANAGEMENT world is changing and developing very fast, this through the regular update, technologies and/or IT based solutions, and in order to keeping up the change project management should be given a big attention and being up to date with new technology, the following papers and discussion will be focused on:

1. Agility in innovative Projects.
2. Project management solutions and technologies and keeping up the change (IT.BIM).
3. The reflection of project management technologies and techniques on development.
4. The project management and the 4th revolution, the difficulties and benefits.

Topic 5

TAKE YOUR CAREER TO THE NEXT LEVEL

There is a strong need for the fresh graduates to be familiar with the project management roles, responsibilities, techniques and technologies. The following sessions will be concentrated on how the fresh graduate can benefit from project management training.

1. Fresh graduates, and project management training, WHAT IS THE Relation and benefit?
2. The difficulties that facing the companies in Oman, and how that reflect on the development, and the recruitments.
3. The SME's companies, challenges and how such companies can participate in the development, and achieve the growth.
